Our people know every thing and when you put them to doing they do little or nothing.

An idle brain carries a tattling tongue and the way of it is hell.

A busy brain is ever at work and carries a silent tongue and the way of it is peace, success and prosperity

Some of our women change color like the chameleon; in the day they are one color but when it is night they turn

Some women are sweet April and May before marriage and after marriage they are November and December hospitals--Youthful Abuse.

One half of our young men want to be "dudes" of fashion with an empty pocket book and good for nothing brain

Man was born for usefulness to himself, to his race, to his country and to his God; then his brain is the site of his thinking faculty and the more he thinks on noble things and put them into action the more he wants to think for humanity. Let the Negro think some for himself and for humanity

People who do not read newspapers care little for humanity and progress. They are mostly the ones who breed trouble and live in it. They are too poor to pay for a weekly paper to better their condition and yet they spend fifty times the amount foolishly. Subscribe

Let us learn to live and if any mistreat you say nothing and sever your business and in due time they will count you no fool

Read the Negro World and be a man. Write your news to it and help to build up your race.

Prepare and go to Galveston, Texas, July 1st. Subscribe for the Weekly Negro World. It will be of great benefit to you and its editor will never mislead you

Honesty is always the best policy and is excellent for character or reputation for these may come to one color blind and false through a friend, but an honest heart with good intentions bears no accusation

Most all of our habits are modern slavery to us as a race. Disfranchisement of the rights guaranteed any people or abuses are only the rdd of correction. Good will, race pride, good deportment for our homes and country, keep pace with the times, are, and will be our only emancipation Go to the Southern Negro Congress.

Let us stop acting a fool, a monkey and all degrading things that hinders our progress and go to work for our race, ourselves, and the country in which we live.

Col. Jas. Hill, chairman of the Republican State Committee has called the attention of the chairmen of respective counties to meet on April 30th and reorganize. This is in keeping with new congressional districts caused by the last legislature.

They will meet at Greenville on April 30 1902

Why don't the colored press advocate the cause of the Southern Negro Congress is not it news to their subscribers

In every vicinity the leading men should come together and work for the common good and welfare of that vicinity and show to their white friends that they mean intelligence, civilization, prosperity and progress, and when they see you mean business in this way, they will aid your success.

We live in the South and we should work for the South, its progress and welfare; work to better your condition, your race and its progress.

Nothing but shiftless good for nothing labor is ever abused by white people. When a Negro has climbed or is climbing the ladder of success, you never hear a white man evil speak him; on the other hand his own race starts a war to finish until he has landed his many thousands. You do not even show commonsense and the very Negro you fight will get more favors from white people than you can dream of, while you get none.

The Government

It is true that the government does not support the people, but the people the government--a wind that never blows upon its races and subjects in their old poor dotage any remuneration as a charitable gift cares but little for its poor old unable subjects. Our government should set an example to the diameter and circumference of the world, upon its land, a free-gift home for all old people, white or colored, unable to support themselves. Charity! Oh, charity. Does not charity begin at home? No, she overlooks home and flies abroad.

There are thousands of poor old white and colored people who have nothing to depend upon nor relatives to care and support them, whose chief living and dependence is the charity of their vicinity or the poor house. The old poor people should not be as offshoot, but should be given a free gift home and only during natural life

If you want to do well, work for the Negro World, a national weekly. The Great Solutionist of the Negro race has now made its appearance in all the States of the Union. The only paper that is extensively read by all races. They don't refuse it because it is the paper. Don't put off--write to day for agents terms and particulars. Big pay. We must solve the Negro problem. When your names are associated in the World, the highest to the lowest officials read your thoughts. Each issue is lively, enthusiastic and cured the evil wherever published. You will miss something that is good and sending to miss the Negro World. Send for a copy whether you need it or not. Old Mississippi. East Tallassee Ala

Mississippi without contradiction is making a rapid progress and as long as the people continue to select and elect such men as Governor, A H Longino, Senators Mc Laurin and Money, they will make no mistake. We know them to be christian gentlemen, full of forethought and wisdom, true to their democracy and convictions, and the same can be said of others. The people often make mistake but they see and know, that no true government will prosper and succeed when other than christian are at its head. It is nature and party politics for the most victorious to rule and govern, and yet, no government will ever succeed that will elect an officer to rule who aim and intention is to hate or suppress any of its subjects on account of race, color or servitude when that government is at their command.

Signs of Times

Politics are being managed in a more conservative form than in former years. The public trust demands conservative men in offices be they republicans or democrats

The day of the extremists is almost numbered in the past, and he who desires an office must not ridicule any subjects on account of race, servitude or nationality. The extreme politician has been looked upon as the most dangerous to any civilized government of people in the world or even in the smallest municipal government. God is in the helm; moreover it requires time, and the dark day of any country was in its embryo.

The darkest days of the Negro was extreme slavery which God through man set them free, and yet we are now free, subjected to a modern slavery of our own for the want of intelligence and will power

The disfranchisement of the races is a Godly blessing, through it the Negro of ambition will rise

The Confederate Veterans are having a glorious time at Dallas Texas and we do earnestly hope a large delegation will be present at the Southern Negro Congress. Subscribe for the World

"Whereas, Efforts are expected to produce a people's success in business, for the betterment of their conditions, are not often found in independent individual effort, but of organized forces and united exertion for common defense and aid; therefore
